Generally, Nutrients are absorbed while in your intestinal tract through a passive mechanism. However, many nutrients require active transporters inside our intestines to transport them from the gut and into your bloodstream. AstraGin has been shown in published studies to help support stronger immune functions by mending ulcerated epithelial cells and reducing the inflammation in intestinal mucosa lamina propria that hosts the gut-associated lymphoid tissue (GALT1), T cells, plasma cells, mast cells, dendritic cells, and macrophages. Mito-Complete, GI-FX and CLGN-FX together provide a masterful combination to ensure protection to the lining of your GI tract, optimal nutrient availability and absorption for the most important bodily processes and the ingredients to supply the energy needs of all your cells at the level of the energy engines called mitochondria.

- **Support Increased Lean Muscle and Strength\***
- **Improve Athletic Performance\***
- **Help Improve Body Composition\***
- **Promote Higher Levels of Mitochondrial ATP\***

**CYRENE LABS**  
REVEAL YOUR POTENTIAL

# CLGN-FX

- CLGN-FX provides the specific peptides and amino acids (proline, hydroxyproline and glycine) needed to produce the ongoing manufacturing of the body's most abundant and most frequently replaced protein, collagen.
- In addition we've added the well known benefits of BCAA (branched chain amino acids, leucine, isoleucine and valine) in the ratio needed to activate the epigenetic nutrient signal needed to manufacture protein, specifically muscle.
- We have included the patented 100% natural compound, AstraGin®. This is what makes CLGN-FX the most powerful protein/Amino Acid supplement available anywhere. Astragin is a formulation proven to support increased absorption of a wide range of nutrients, specifically protein, peptides and amino acids while helping to heal and support the integrity of the gut lining while creating a more favorable environment to process all of the food you eat.
